 - Jest (for testing)
- AWS
 - DynamoDB
 - Cloud Watch
 - S3
 - Lambda

EXPERIENCE

ADMIN & SOCIAL MEDIA MANAGER (April 2023-Present)

South Auckland Plumbing

At this Auckland-based plumbing company, I have improved their social media following and engagement by over 200% in just the first 3 months & handle additional responsibilities such as customer service, maintaining schedules and co-ordinating with clients/contractors/maintenance plumbers.

INTERMEDIATE BACKEND DEVELOPER (March 2022-April 2023)

Blackout Games

Blackout Games is a game development company based in Hamilton that specializes in sports management games.

- As a backend developer, I've loved working alongside backend, design, UI & frontend teams to resolve issues & to create games that we can all be proud of. As one of the key backend developers on the upcoming Football Manager game, I have been working on;
 - Upgrading Blackouts core library code to handle new sports
 - Designing, creating, and documenting the new football formation systems alongside the frontend developers
 - Converting Rugby specific systems to support Football & future sports
- Other areas I have worked on are;
 - Preparing to take on a producer role
 - Identifying, fixing & deploying bug fixes
 - Creating & improving readable documentation
